Software Engineering graduate with a focus on React.JS, Node.js, and MongoDB. I have experience as a Software Engineer and Full Stack Developer, spanning from a Bachelor's degree to a year of hands-on experience at a leading software firm, where I worked on advanced projects. Recently, I completed a 6-month internship at DigitsCom Technologies, facilitated by PSEB, enhancing my MERN stack skills in a practical setting. Known for my adaptability and eagerness to learn, I excel in fast-paced environments, delivering quality outcomes through teamwork. Passionate about technology and innovation, I seek to contribute to groundbreaking projects in the tech industry, combining my expertise with a drive for continuous improvement.

Throughout my career, I have demonstrated exceptional adaptability in fast-paced environments, consistently delivering high-quality outcomes through effective collaboration within cross-functional teams. My passion for technology and continuous learning drives me to embrace new challenges and innovate in every project I undertake. I am deeply committed to sharing my expertise and contributing to meaningful and innovative projects that push the boundaries of what is possible inthe tech industry.

EXPERIENCE

Mern Stack Intern   Nov 2023 - May 2024

DigitsCom Technology, pakistan, Mansehra

- Worked with a team to create new ideas using Node.js and Full Stack technologies.
- Completed different task related to ecommerce website during my internship journey.
