Software Engineering graduate with a year of experience building awesome tech projects as a MERN Stack developer (React, Node, MongoDB). I also honed my skills through a 6-month internship facilitated by PSEB. I'm a team player who thrives in fast-paced environments and loves to learn. Always up for a challenge, I'm excited to bring my skills and passion for innovation to the tech industry!

EXPERIENCE

Mern Stack Intern   Nov 2023 - May 2024
DigitsCom Technology, pakistan, Mansehra
- Collaborated with a team to develop innovative features for an e-commerce website using Node.js and full-stack technologies.
- Gained valuable experience tackling various e-commerce related tasks throughout the internship.

FYP, Team Leadership   Feb 2023 - Jun 2023
Hazara University , Mansehra
- Created an AI model that used for detection of face mask named as Face Mask Detection System.
- Illustrated leadership competences, and was able to complete the project within a 4-month timeline.

EDUCATION

Bachelor of studies in software engineering   Sep 2019 - Sep 2023
Hazara University, Mansehra
- Completed a comprehensive software engineering program, gaining a strong foundation in various areas.
- This includes core programming languages like C++ and Java, allowing me to write efficient and well-structured code.
- I also honed my web development skills in HTML, CSS, and JavaScript, enabling me to create responsive user interfaces.
- Additionally, the program covered software testing and digital logic design, equipping me to deliver high-quality, reliable software products.

Higher Secondary School Certificate   Aug 2017 - Aug 2019
Army public school and college shinkiari BISE Abbottabad (Shinkiari, Pakistan)
- Completed a strong academic foundation with a focus on computer science, including math, physics, and practical applications.
- This prepared me for further studies in software engineering.

Secondary School Certificate   May 2015 - Jun 2017
Abasen public school and college shinkiari BISE Abbottabad (Shinkiari, Pakistan)
- Completed a strong science foundation with subjects like physics, chemistry, biology, and mathematics.
- This foundational knowledge prepared me for further studies in computer science and engineering.

SKILLS

- **Frontend Development:** HTML, CSS (SCSS, Tailwind CSS, Bootstrap), JavaScript (jQuery, AJAX)
- **Backend Development:** Node.js, Express.js, MongoDB
- **Full-Stack Development:** MERN Stack (React.js, Chakra UI, Material UI)
- **Programming Languages:** C++

Soft Skills:

- **Communication:** Clear, concise, and effective communication (written and verbal)
- **Teamwork:** Collaborative, adaptable, and team-oriented
- **Problem-Solving:** Excellent analytical and problem-solving skills
- **Emotional Intelligence:** Strong self-awareness and ability to navigate interpersonal dynamics
- **Conflict Resolution:** Proficient in conflict resolution and fostering positive team environments

LICENSES & CERTIFICATIONS

- Introduction to Web Development with HTML, CSS, JavaScript (2023): **Coursera (IBM) - Demonstrates a strong foundation in web development fundamentals.**
- C# for .NET Developers (2023): **Coursera (IBM) - Showcases additional programming language proficiency.**
